## 1 Summary

This week I mainly focus on the DataScanner project.

## 2 Projects

### 2.1 Project 1 - DataScanner1

- This week I implemented the control condition of the user study. The control version is a coordinated view system the same with the original system but without quartet tree structure. The view selector widget is available in both systems. I will start the user study next week.
- The main work done this week is another case study. The dataset is the China Mobile dataset. I started data preprocessing but it took days.
- The paper writing part, I completed the related work part, replaced the data quality literature with quality metrics papers.

## 3 Paper Reading and Miscellaneous

I wrote a blog on the Pitfall paper.

## 4 To Do List

1. Go on with user study and case study
2. Go on with paper writing
